

# Project Profile

## Masonry Restoration

### Project Name & Location

Lafayette at Valley Forge

King of Prussia, PA

### Management Company

Westover Companies

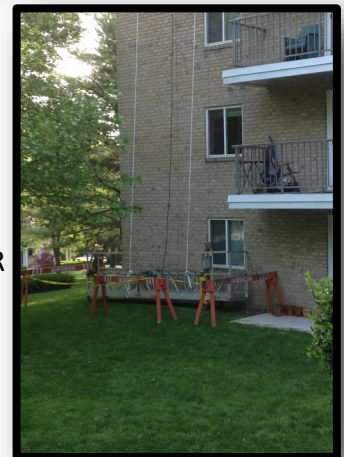

### Reference Contact

Pete Quercetti

### Project Description

Northern Waterproofing & Restoration Co., Inc. was called on by Westover Companies, in order to perform an exterior building inspection of existing sealant and mortar within the brick facades. During our inspection, it was evident that the existing sealant and mortar joints within the top four floors of were failed and deteriorated. Furthermore, all existing weep-holes were completely obstructed and failed. That being said, NWR performed several of it's services throughout the complex, which include;

-  Brick-Pointing and Replacement
-  Sealant Replacement
-  Installation of new Weep system
